

GEOVAULT AI — GEOLOGICAL & GEOSPATIAL CORPUS

FINAL SYNTHETIC DEMONSTRATION ATLAS

5 mines • GIS • boreholes • lithology • seams • faults • survey • CAD • DEM

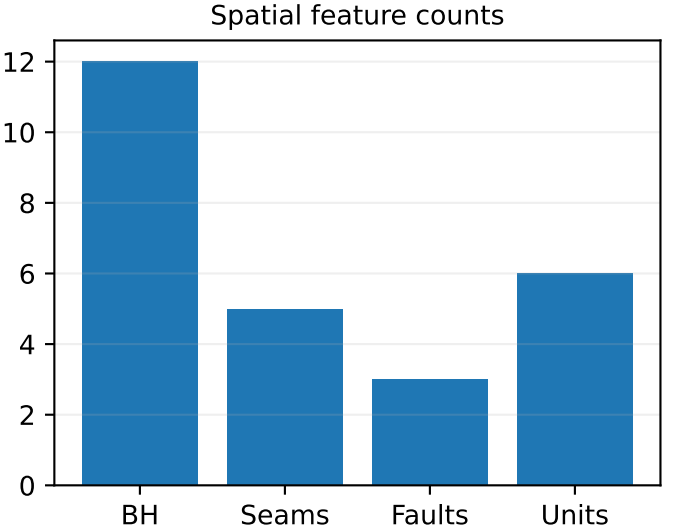

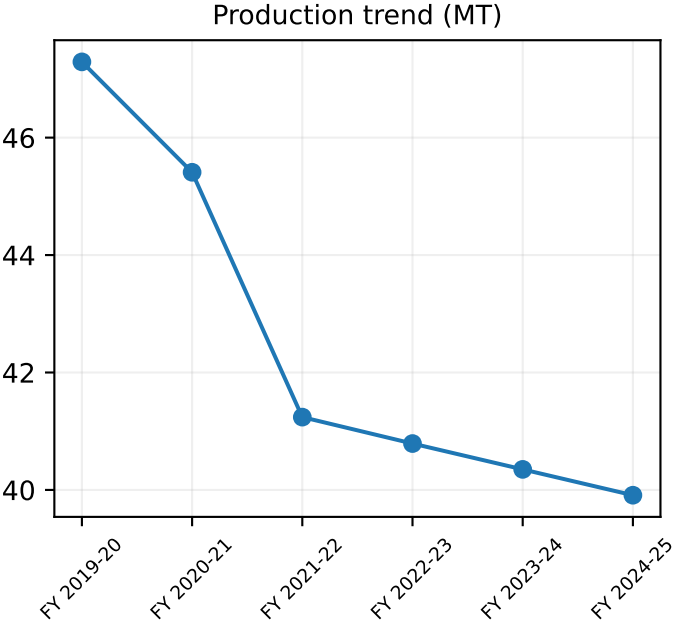

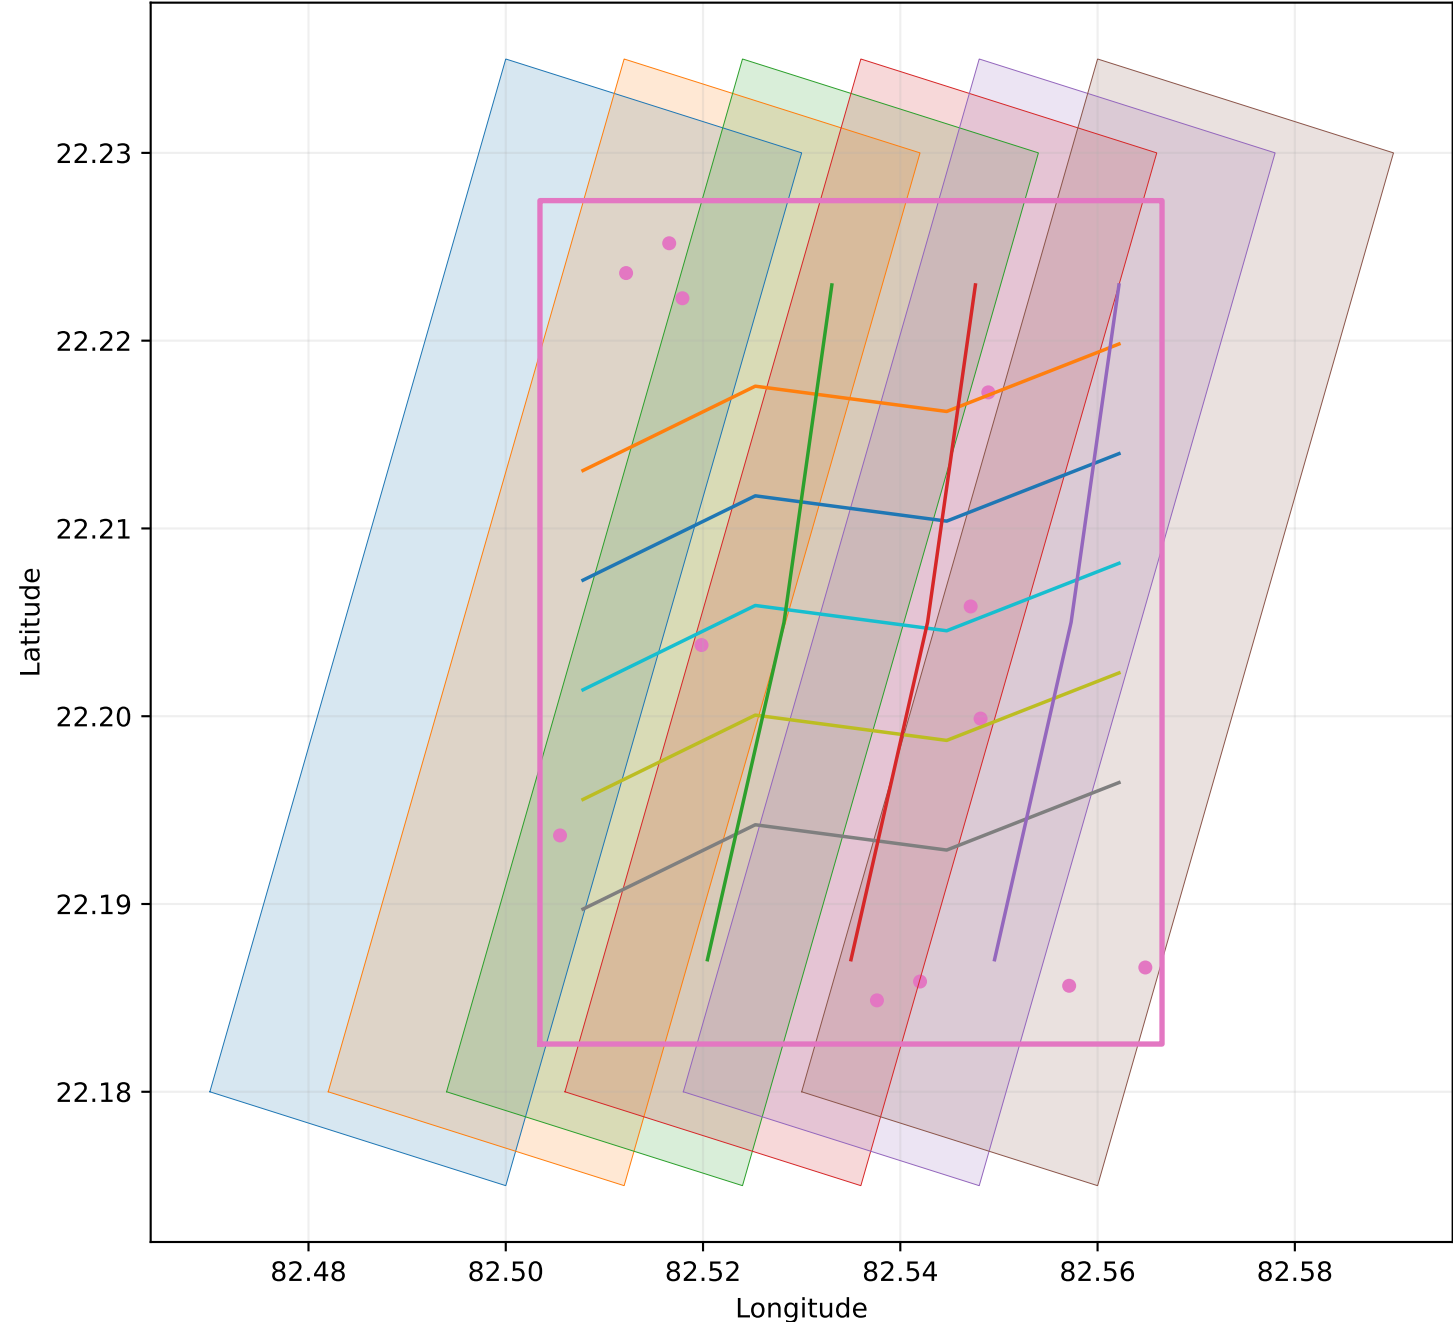

Purpose

Prototype-ready synthetic corpus for spatial search, geological reasoning, map visualization, cross-format retrieval and dataset validation.

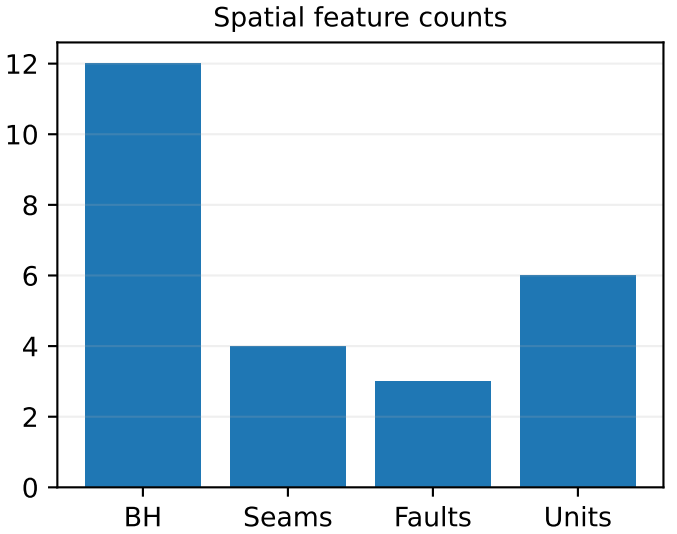

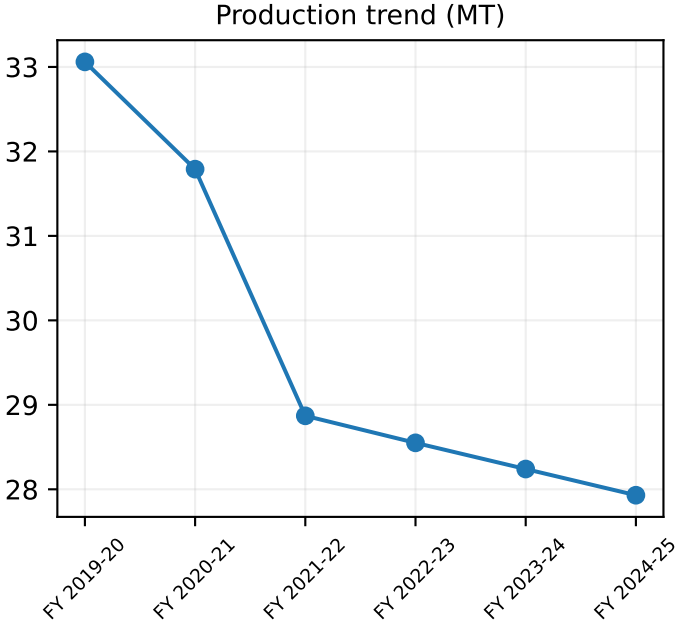

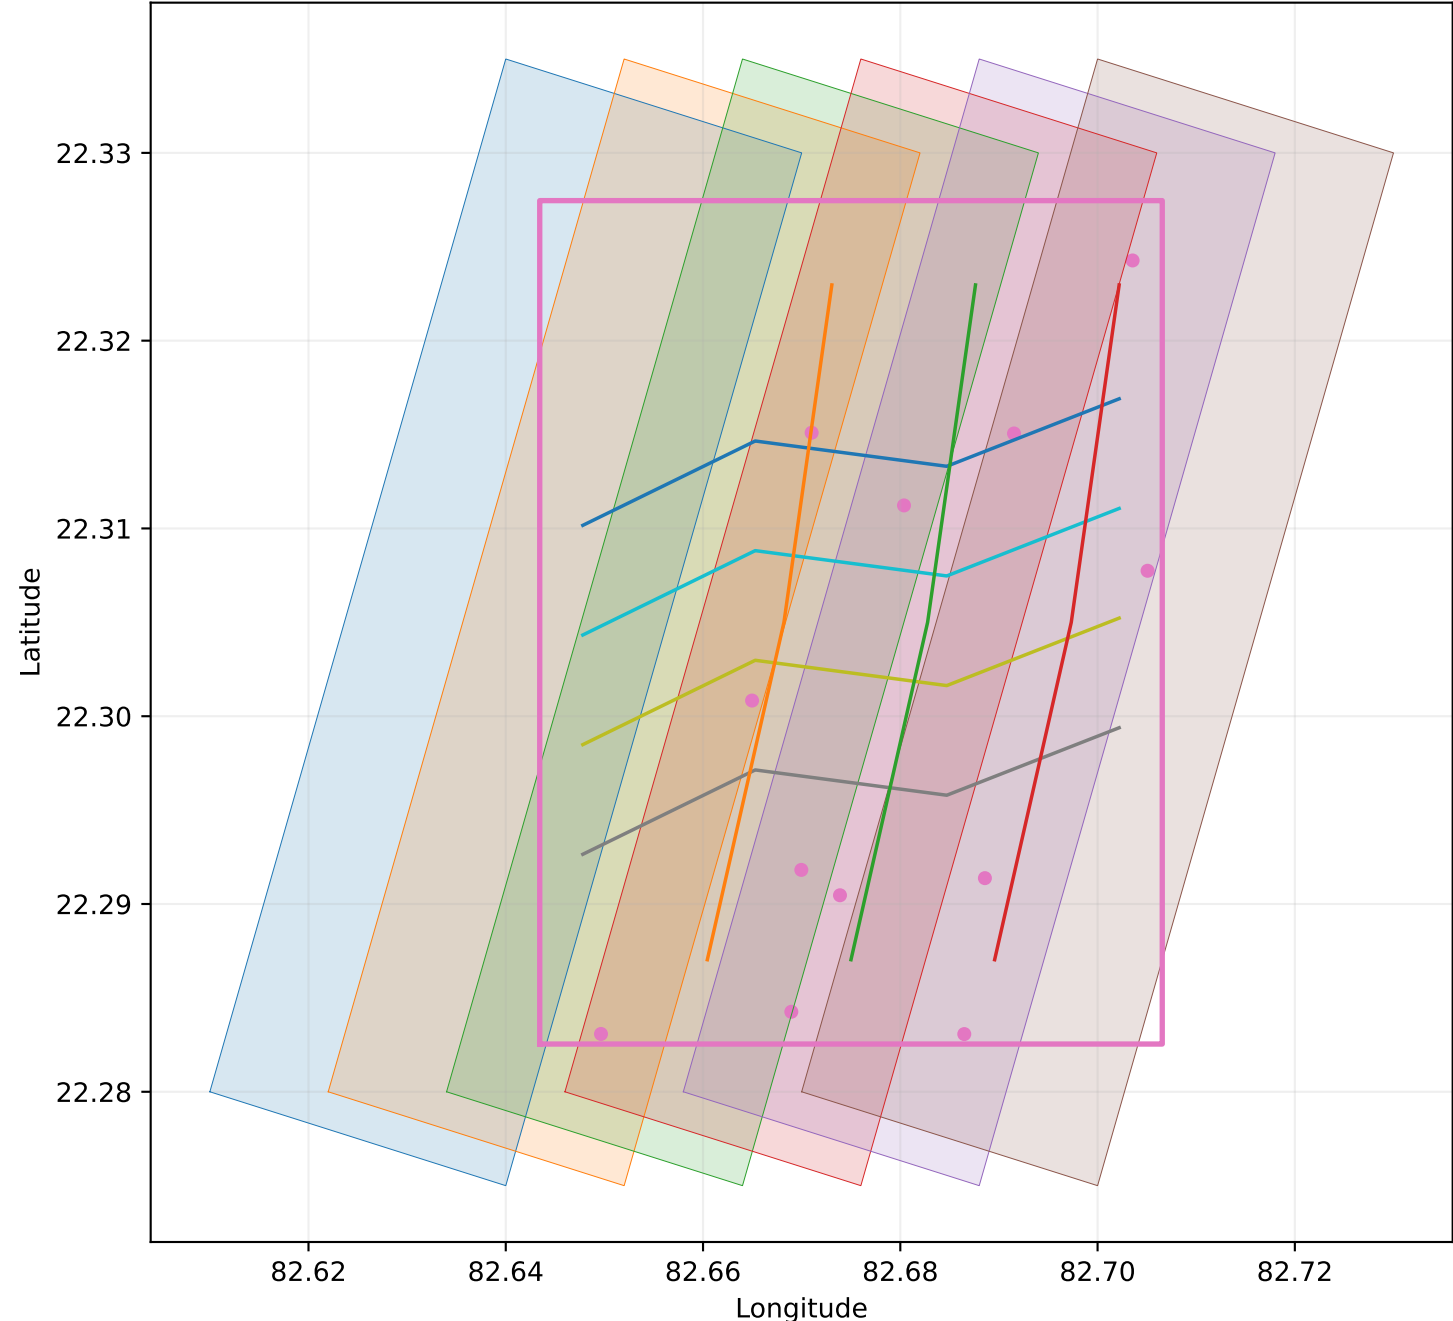

IMPORTANT: Mine-specific geometries, borehole measurements, geological intervals, synthetic DEMs and derived values are demonstration data and are NOT official CMPDI/CIL records.

Public sources are used only for high-level context; see PUBLIC_REFERENCE_SOURCES.md.
